Subject: San Jacinto River Waste Pits - Task Order 0130-RSBD-06ZQ
Date: Tuesday, December 22, 2015 10:29:00 AM
Attachments: [Draft Work Plan for Additional Rock Placement 12172015REV-2_CLEAN.pdf](#)

Brian,

As we discussed today, please arrange for collection and analysis of sediment sample splits as per Sections 3.3.2 and 3.5 of the Work Plan, Revision 00 (Task Order 0130-RSBD-06ZQ, Contract EP-W-06-004). A total of 2 split sediment samples from the northwest cap area of the San Jacinto River Waste Pits will be required for this event, with analysis for dioxins and furans. Sample collection is planned for Wednesday, 12/23/2015.

In addition, please arrange for field oversight of the cap repair construction activities in accordance with Section 3.3.1 of the Work Plan. Mobilization for the construction work is expected to start on Tuesday, 12/29/2015, and take 1 to 2 weeks to complete. I am attaching the current draft of the PRPs workplan for your information.

Please let me know if you have any questions on this.

Regards,

Gary Miller
